Lloyds A60 Approved

MED module B Approved for passenger vessels

Pressure tested to 5 bar

Bolt in—no welding required

Putting safety first

Can be faster & cheaper than disturbing an existing transit
 Spare ways can be left blank until required
 Ideal for last minute entries

A typical MSR 40 Type 3 being installed

The MSR Gland is designed to seal up to 8 cables with diameters between 4 & 16mm, depending on the type used.

You simply remove the center core and rings required to enable the cable(s) to pass through.

When all cables are pulled through the gland simply tighten the four allen screws equally. Once complete the seal will provide an effective barrier against fire, water, gas, dust, vermin etc.
